View Report by Case Number

Documentation

Test

GET {{base}}/api/integration/reports/:case_number

View Report by Case Number

Retrieves the full details of a specific report using its case number. This endpoint is intended for integration use and requires a valid view token for authorization.

Authentication & Authorization

Header	Value	Description
X-EReport-View-Token	{{integration_report_view_token}}	Required. An integration report view token used to authorize access to the report. This token is issued per integration and must be included in every request.

Path Parameters

Parameter	Type	Required	Description
case_number	string	 Yes	The unique case number of the report to retrieve.

Request Example

GET {{base}}/api/integration/reports/:case_number
X-EReport-View-Token: {{integration_report_view_token}}

Response Examples

This request includes the following saved response examples for reference:

- View Report by Case Number - Success** — Illustrates a successful response when the report is found and the requester is authorized.
- View Report by Case Number - Error** — Illustrates an error response, such as when the report is not found or the token is invalid.

HEADERS

Key	Value
X-EReport-View-Token	{{integration_report_view_token}}
